

Television Engineer

WWNY/WNYF/MeTV Television is seeking an Engineer. We are a leading-edge broadcaster with 3 TV stations. We have been involved with multiple broadcast equipment product designs and beta tested them at the station. The perfect candidate will be accountable for the preventative maintenance, diagnosis and repair of Microsoft products, professional broadcast equipment and have the ability to innovate.

Experience: Ideal candidate will have minimum 3 years' experience with Windows Client/Server networking as well as working knowledge of broadcast systems. Experience with operation and maintenance of professional VTR's, camera's, switchers, Routers and distribution equipment preferred but not required. A good mechanical aptitude and experience with Ross Video products is beneficial. WWNY-TV is an Equal Opportunity Employer.
